Machine specification for your reference

SPECIFICATIONS	MIG 350S
Input voltage	AC 380 / 415V, 3 phase
Frequency	50 / 60 Hz
Rate Maximum Input Power	26 A
Voltage Adjustment	2 x 12 (Steps)
Maximum welding output	350A / 28 V
Minimum welding output	40A /16 V
Output Rating	350A / 32 V
Output Control	Tapping Switch
Rate Duty Cycle 60%	350A / 32 V
Rate Duty Cycle 100%	270A /28 V
Dimension (W x L x H)	980 x 373 x 920
Weight (Power Source)	126.5kg
Welds	Steel Stainless Steel Copper Aluminum Brass
Typical Usage	Automotive Fabrication Maintenance Manufacturing
